SUMMARY

Software Engineering student who builds web applications, from school systems to a code editor, while learning the capital market and basic financial analysis.

EDUCATION

SMK SIG (Semen Gresik) — Software Engineering (RPL) — Grade 12 · Graduating 2027

SMPN 17 Gresik — Junior high graduate

MI Minu Banin — Primary school graduate

EXPERIENCE

Internship (PKL) — PT Nale System Integrator, Malang — 1 Jan – 30 Jun 2026

- Repaired printers.
- Troubleshot laptop issues.
- Troubleshot network issues.

Assessment result: Good.

PROJECTS

Alexel Studio — Open source
Desktop code editor with AI agents (every change needs approval), plus database and API clients, notebooks, and Remote SSH. Electron · React · TypeScript

oneSIG
Main school app: timetables, attendance, grades, digital wallet, and a co-op store with QR cashier; 11 user roles. React · TypeScript · FastAPI · PostgreSQL

SIGChat
End-to-end encrypted school chat with groups created automatically from oneSIG data. React · FastAPI · WebSocket

SIGlearning
Online learning space: lessons, quizzes, and progress, linked to oneSIG grades. React · Node.js · PostgreSQL

Orvella — Open source
Coding-learning platform with a real sandbox for 12 languages and a desktop-in-the-browser. React · FastAPI · Docker

E-Pilketos
Digital student council election with in-browser face verification and quick count. PHP · MariaDB · face-api.js

Attendance System — In real use
Web attendance system for daily records and summary reports, in real use. PHP · MySQL · Bootstrap

SKILLS

Web development

HTML & CSS · JavaScript · PHP & MySQL · Laravel · React · TypeScript · Node.js · FastAPI

Finance

Basic Capital Market · Basic Financial Analysis · Investment & Stocks · Financial Recording

IT support

Laptop troubleshooting · Network troubleshooting · Printer repair

Tools

VS Code · DBeaver · Git · Docker · PostgreSQL · MariaDB
